DAHLIA PRICE LIST *for* 1925

GROWN BY
A. W. WARREN & SON

The Up-to-date Dahlia Growers

509 CABOT STREET

BEVERLY, MASS.

For 1925 we offer the three new varieties listed below, each different from our 1924 originations, but retaining the same high standard of all former Warren varieties.

MAYBELLE WARREN. (H. C.) One of the very best, has every thing one could wish for in a Dahlia, color, size and freedom of bloom. The color is bright rose pink with a silvery reverse, showing at tips, giving it the appearance of a fancy tipped variety. Price for good tubers. \$7.50

COLONEL DUPONT. (H. C.) One of the best deep velvety maroon varieties we ever saw. Flowers are of extra large size and the habit is perfect. Greatly admired in our gardens. Price for strong plants. \$5.00

LEWIS CURRIER. (H. C.) Very odd, but beautiful variety, upright habit, on stiff stems. Not as large as our Maybelle Warren, but of large size. Color, yellow at base to warm fawn at tips, one fine cut flower. Price for tubers. \$1.50

We offered the following thirteen seedlings, last season, all being of our own origin, except Silvertips and Mattie, which were originated by Mr. Charles Allen of Manchester, Mass. a private gardener on one of our North Shore estates, and have only his surplus stock which Mr. Allen has kindly allowed us to release to our trade.

We wish to state that all these varieties, are better than we have tried to describe them and that the prices are very low, considering the wonderful flowers that can be obtained from them.

We have a good supply of tubers on some of the varieties, but on others we can only furnish plants, these varieties we have marked as plants only.

WARREN'S JUMBO. (Dec.) One of the largest and brightest dahlias we ever saw, 10 inch flowers, of a beautiful golden orange color. This variety has everything to commend it to the grower, that is looking for a dahlia that has stem, size, and color, combined with a perfect habit. Has been a big sensation where ever shown and always will be in great demand among exhibitors. Tubers \$10.00 Plants \$5.00

ANNIE L. WARREN. (Dec.) Another monster, same size as our Jumbo, on long stems and free flowering. In some soils this dahlia comes a perfect Dec. and in others a fine heavy built Peony, either way it is a wonderful flower. Color is like Mrs. I. de Ver Warner, a beautiful orchid, and grown side by side, will beat it flower for flower. A few tubers only. \$5.00

MARGARET E. AFFONCO. (H. C.) Wonderful deep yellow, with each petal tipped with pure glistening white, for about half of the floras.

This variety has never shown a solid flower with us and is the most beautiful yellow and white, we ever saw bar none. Flowers are between 7 and 8 inches in size, borne on stiff stems, habit the best. \$2.50

SILVERTIPS. (Allen) (Dec.) Another white tipped variety, that is going to be one of the most popular dahlias and it is certainly, one of

GUARANTEE

We guarantee all bulbs true to name as listed and also their arrival in good growing condition. We will cheerfully replace any that prove otherwise. Kindly notify us at once. We do not substitute unless requested but would suggest a second or third choice in case one you order is sold out.

SIZE OF BULBS.—The size of the bulb or tuber does not in any way designate the size or quality of the flower. Some varieties of Dahlias always produce very small bulbs, while other varieties make large ones. Do not consider small bulbs worthless, for they are equally as good and in many cases better than large ones. Medium and small sized bulbs more often produce the finest and highest colored flowers; and in many cases the best and most effective plants. The only requisite of a Dahlia bulb is the certainty of having one or two eyes or sprouts, and whether large or small, with proper cultivation success is generally assured. A clump root, bulb, or division of a clump, pot-root, cutting, sprout, and even a Dahlia seed, will grow and blossom, all equally well, It is not the size, but the care and cultivation.

TIME OF SHIPMENT.—Unless otherwise ordered, tubers will be shipped after May 1st, by express or insured mail at my expense. Dahlias ordered shipped before April 15th will be sent only at purchaser's risk of drying out or freezing.

Order early and send cash with order, by Express, P. O. Money Order, or Registered Letter.

The earlier you send your order the surer you are to get what you want. Send now.

We know we can please you.
